

Punta Gorda Airport Emergency Contingency Plan

The Punta Gorda Airport has prepared this Tarmac Delay Contingency Plan pursuant to 49 U.S.C. § 42301. Questions regarding this plan can be directed to Chief Executive Officer James Parish at Jparish@flypgd.com. The Punta Gorda Airport is filing this plan with the Department of Transportation because (1) it is a commercial airport or (2) this airport may be used by an air carrier described in USC 42301(a)(1) for diversions.

This plan describes how, following excessive tarmac delays and to the extent practicable, Punta Gorda Airport will:

- Provide for the deplanement of passengers;
- Provide for the sharing of facilities and make gates available at the airport; and
- Provide a sterile area following excessive tarmac delays for passengers who have not yet cleared United States Customs & Border Protection (CBP).

The Punta Gorda Airport has facility constraints that limit our ability to accommodate diverted flights or maintain the airport's safe operation and strongly encourages aircraft operators to contact the airport at 941-815-7629 for prior coordination of diverted flights, except in the case of a declared in-flight emergency. Specific facility constraints include the following: No CBP facilities, Limited Commercial Ramp Space. Limited to Boeing 757 type and below for GSE limitations. We have noted these constraints in The Punta Gorda Airport Airport/Facility Directory record. During diversion events Punta Gorda Airport issues NOTAMS regarding its ability to accommodate diverted flights to ensure the safe and efficient operation of the airport and its ability to serve the civil aviation needs of the public during irregular operations events.¹

Airport Information

Name of Airport: Punta Gorda Airport

Name and title of person preparing the plan: Chief Executive Officer James Parish

Preparer contact number: 941-639-1101 ext. 102

Preparer contact e-mail: Jparish@flypgd.com

Date of submission of plan: May 31, 2022

Airport Category: Large Hub Medium Hub Small Hub Non Hub

Contact Information

In the event of diversion or other irregular operations events, aircraft operators should contact the Airport Operations at 941-815-7629 or airside@flypgd.com for assistance.

Plan to Provide for the Deplanement of Passengers Following Excessive Tarmac Delays

Punta Gorda Airport has limited equipment and personnel needed to safely deplane passengers from air carrier aircraft. We will utilize this equipment to deplane passengers as soon as practicable after receiving requests from such airlines at the contact number listed above. We will also provide a list of airlines, ground handlers, fixed base operator and others who may have the necessary equipment and personnel to safely deplane passengers to airlines as soon as practicable after receiving requests from such airlines experiencing excessive tarmac delays at the contact number listed above.

Plan to Provide for the Sharing of Facilities and Make Gates Available in an Emergency

The gates at Punta Gorda Airport are under common use leases to air carriers and are controlled by the airport. We will work with our common use tenant air carriers to make gates and other facilities available to an air carrier seeking to deplane at a gate to the extent practicable.

Plan to Provide a Sterile Area for Passengers Who Have Not Cleared United States Customs and Border Protection

The Punta Gorda Airport does not have international passenger processing facilities.

Public Access to the Tarmac Delay Contingency Plan

Punta Gorda Airport will provide public access to its Tarmac Delay Contingency plan by posting in a conspicuous location on the Airport's website <https://www.flypgd.com> .
